Course Description

Release 8207

WebFOCUS Designer Series: Using the WebFOCUS Home Page

Course #: 102S8207        Type: Self-Study
CEUs: N/A                  Price: US $600 | Canada $600

Summary

In this course, you will learn how to navigate, configure, and customize the WebFOCUS 8207 Home Page to support the key capabilities that enable you to maximize the power of your data as you create insights, analyses, reports, and visualizations.

This course offers a comprehensive study of the WebFOCUS Home Page and an interactive learning experience—two modular learning units, over 15 lessons, quizzes, two unit challenges and an integrated AWS Cloud-enabled lab environment—collectively designed to build your proficiency as you move from unit to unit:

- Navigating the WebFOCUS Home Page
- Customizing the WebFOCUS Home Page

This self-study course is one of ten courses in the WebFOCUS Designer eLearning series—a self-paced learning path from getting started to accreditation—which includes seven other self-study courses, including Practice Exercises and Challenges and Accreditation Prep + Exam. See details and register.
